REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

None of the prior art of record discloses or suggests a method for fabricating an array comprising the following features: a) forming a plurality of insulating media having a plurality of wavelength and polarizing elements embedded therein at an angle relative to the surfaces of said media b) such that the spacing between elements halves for each different medium in said plurality of said media, c) forming a phase shifter arrangement such that a portions thereof of conductive material are disposed on one of said surfaces of said media in registry with every other element in each of said media and other portions of which of conductive material are disposed on another of said surfaces overlapping all of said elements, and, d) a phase shifting material disposed over at least said every other element stacking said plurality of media such that the topmost insulating medium has two elements and each succeeding medium has twice as many elements as a preceding medium.

US 5,096,520 discloses an insulating media having a plurality of wavelength and polarizing elements embedded therein at an angle relative to the surfaces of said media, and a phase shifter arrangement. However, the '520 patent does not disclose the above features *a*, *b*, *c* and *d*.

US 5,221,982 discloses three stacked liquid crystal cells, an insulating media having a plurality of wavelength and polarizing elements embedded therein at an angle relative to the surfaces of said media, and a phase shifter arrangement. However, the '982 patent does not disclose the above features *a*, *b*, *c* and *d*.

Art Unit: 2871

US 5,459,591 discloses a plurality of insulating media having a plurality of wavelength and polarizing elements embedded therein at an angle relative to the surfaces of said media, and a phase shifter arrangement. However, the '591 patent does not disclose the above features *b*, *c* and *d*.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
